Welcome to Nemo consulting services (Independent contractors)

We provide practical consulting services; we are not consulting engineers, but we have variety of onsite experienced personnel that we provide to clients on advisory or leasing agreement.

We are one of the few if not the only company that offers these services

We are a backup team that is forever ready to deliver and a phone call away with a maximum of 5 days' lead time or less anywhere in Africa.

About Us

Nemo consulting services is created to partner with **construction companies, architectural firms, private clients, structural consulting engineers and quantity survey firms as independent contractors.** The company is created to be a solution-based firm for a smooth integration or transition between consultants and the partnered team executing the actual job. We have identified the vacuum between consultant, main contractors and subcontractors from practical level. We can confidently say that we are the umbilical cord between designs and practical, with massive experience we have there is no doubt that we are the best in the field. The firm consist best of best performers and experienced employees. The firm is also embarking on a skill transfer program to preserve the construction skills in the country by employing young employees. The firm is also looking at the 4th industrial revolution ways to integrate with construction skills to be on par with the global innovative construction standards. We are looking into introducing latest mechanical aided technology to improve quality, save cost and save time. We consider environmental, health and safety matters seriously as a result all our employees prior any works must deemed competent.
